

Key Words Index

Vol 73 2006

¹²³ I-BMIPP	(5) 258
²⁰¹ TlCl	(5) 258

A

academic hospital	(5) 265
acarbose	(5) 277
acute coronary syndrome	(3) 141
additional surgery	(3) 136
adenocarcinoma	(2) 101
alveolar capillary remodeling	(4) 203
amniocentesis	(5) 271
anastomotic leak	(1) 18
anisakiasis	(3) 169
antibiotics	(3) 122
aortic valvuloplasty	(3) 158
asynchronous quadruple colonic carcinomas	(3) 149
atherosclerosis	(3) 154
autoimmune hemolytic anemia	(2) 93
autoimmune pancreatitis	(4) 235

B

bacteria	(3) 122
Beals syndrome (congenital contractural arachnodactyly; CCA)	(5) 285
Boerhaave syndrome	(6) 341
bone deformity	(6) 332
breast cancer	(4) 193, (6) 320
breast reconstruction	(4) 193, (6) 320
breast-conserving therapy	(4) 193, (6) 320
bronchopleural fistula	(6) 314

C

Caesarean section	(2) 70
cancer	(2) 54
capillary endothelium	(4) 203
carcinogenesis	(6) 308
cardiogenic shock	(3) 158
cardiomyopathy	(5) 285
carotid artery	(3) 154
carotid endarterectomy	(3) 154
cerebral infarction	(3) 154

child	(5) 292
cholecystitis	(2) 97
chromosome aberrations	(5) 271
chronic myelogenous leukemia	(4) 178
coagulation factor XIII	(2) 89
cobalamin	(2) 65
colestimide	(5) 277
colon cancer	(3) 169
combined spinal epidural anesthesia	(2) 70
common bile duct carcinoma	(3) 164
conservative therapy	(6) 341
coronary intervention	(3) 158
cosmetic outcome	(4) 193
cosmetic outcomes	(6) 320
COX-2	(6) 308
cytology	(3) 129

D

dark feces	(5) 292
diagnosis	(3) 129, (6) 300
dobutamine stress	(5) 248
dual-isotope SPECT	(5) 258
duodenal ulcer	(5) 292

E

ectopic nail	(6) 332
endoscopic surgery	(4) 193, (6) 320
endoscopy	(6) 337, (6) 341
enterectomy	(4) 221
epidermal growth factor	(1) 18
esophageal cancer	(6) 308
esophageal perforation	(6) 337
esophageal rupture	(6) 341
Evans' syndrome	(2) 93
exercise	(5) 248
expandable metallic stent	(3) 164

F

factor XIII	(1) 18
floating right heart thrombi	(1) 33
fracture	(3) 164

G

gastric cancer	(4)	214
gastrointestinal bleeding.....	(6)	346
gated SPECT	(5)	248
general anesthesia	(1)	4
glycemic control	(5)	277
Graves' disease	(1)	10

H

<i>Helicobacter pylori</i>	(5)	292
hypokalemia	(5)	289

I

idiopathic retroperitoneal fibrosis	(4)	235
IgG4	(4)	235
ileal interposition	(3)	149
ileal varices	(4)	221
imatinib	(4)	178
immunohistochemistry	(6)	308
incident	(5)	265
incidental gallbladder cancer	(3)	136
incompatible blood transfusion	(2)	93
infant	(2)93, (5)	289
inflammation	(2)	54
influenza	(3)	122
initial dose	(2)	70
inpatient fall	(5)	265
interstitial pneumonia	(4)	203
intra-aortic balloon pump	(3)	158
intrafamilial transmission	(5)	292
intravenous administration	(2)	89
ischemic heart disease	(5)	248

L

laparoscopic cholecystectomy	(3)	136
laparoscopic surgery	(4)	214
leukemic transformation.....	(2)	97
leukocyte	(1)	4
leukocyte subpopulation	(1)	24
light-emitting diode phototherapy.....	(2)	75
liver cirrhosis	(4)	221
liver metastases from colorectal cancer	(2)	82
lung cancer	(3)116, (6)	314
lymphadenectomy	(4)	214

M

magnetic resonance	(6)	328
malignant afferent loop obstruction	(4)	226
meningeal carcinomatosis	(4)	240
multifocal idiopathic fibrosclerosis	(4)	235
myelodysplastic syndrome	(2)	97
Myelodysplastic syndromes	(6)	300
myocardial infarction.....	(3)141, (5)	248
myocardial perfusion SPECT.....	(5)	248

N

nail deformity	(6)	332
neuroendocrine cell carcinoma	(2)	101
nitric oxide	(2)	54
no-reflow phenomenon	(5)	258
noncompaction	(5)	285
nonspecific interstitial pneumonia.....	(4)	203
nonsurgical treatment.....	(6)	337

O

obstructive jaundice	(3)	164
oseltamivir.....	(3)	122

P

p53	(2)	54
painless thyroiditis	(1)	10
pancreas	(4)	231
pancreatic arteriovenous malformation	(6)	346
pathophysiology	(6)	300
percutaneous cardiopulmonary support	(3)	158
peripheral facial palsy	(4)	240
persistent air leak.....	(2)	89
placental abruption	(6)	351
placental position	(6)	351
plaque disruption	(3)	141
pneumonecotmy	(6)	314
posterior wall	(6)	351
preemptive epidural analgesia	(1)	4
prenatal diagnosis	(5)271, (6)	351
prognostic factor	(2)	82
prostate	(1)	24
prostate cancer.....	(3)	129
prostate-specific antigen	(1)	24
prostatic fluid	(1)24, (3)	129
Pseudohypoaldosteronism	(5)	289

pulmonary thromboembolism (1) 33

Q

quality management (5) 265

R

recurrent tumor (4) 226

refractory pneumothorax (2) 89

reperfusion therapy (5) 258

risk factors (5) 265

S

sensorineural deafness (4) 240

simultaneous bilateral spontaneous
pneumothorax (1) 29

skin-homing T-cells (2) 75

solid and cystic tumor (4) 231

steroid therapy (4) 235

subacute combined degeneration (6) 328

subacute thyroiditis (1) 10

superinfection (3) 122

surgical bypass (4) 226

surgical stress (1) 4

surgical treatment (3) 116, (6) 332

survival rates (2) 82

synchronous metastases (2) 82

T

Tc-99m pertechnetate (1) 10

tension pneumothorax (1) 29

Th-1 cell (2) 75

Th-2 cell (2) 75

thoracoscopic surgery (3) 116

thrombocytopenia (2) 93

thyrotoxicosis (1) 10

transforming growth factor- β (1) 18

transgenic mice (4) 178

tumor-free margin (2) 82

type 2 diabetes mellitus (5) 277

U

ultrasonography (5) 271

unstable angina (3) 141

upper abdominal surgery (1) 4

urinary tract infection (5) 289

urinary tract malformation (5) 289

usual interstitial pneumonia (4) 203

V

video-assisted thoracic surgery (3) 116

vitamin B12 (2) 65, (6) 328

vitamin B12 supplementation (2) 65

W

whiplash injury (3) 154

wound healing (1) 18

Y

young male patient (1) 29
