

Key Words Index

Vol. 75 2008

A

abdominal aortic injury	(6)	337
acute pulmonary thromboembolism	(3)	175
adenosquamous carcinoma	(4)	242
adult	(3)	166
Alzheimer's disease	(2)	68
animal study	(3)	157
aortic valve calcification	(3)	138
aortic valve stenosis	(3)	138
argon plasma coagulation	(5)	280

B

balloon-occluded retrograde transvenous obliteration	(1)	36
bariatric surgery	(4)	202
basaloid squamous cell carcinoma	(6)	354
benign prostatic hyperplasia	(2)	77
biliary tumor thrombus	(5)	284
blood loss	(3)	146
body composition	(1)	15
breast cancer	(6)	332

C

calcineurin inhibitors	(3)	187
carcinosarcoma	(3)	171
cardiotoxicity	(6)	320
cerebral infarction	(4)228, (6)	344
cerebral sigmoid sinus thrombosis	(6)	340
cesarean section	(3)	146
child case	(4)	225
childhood cancer	(6)	320
cholecystokinin	(2)	111
chorioamnionitis	(2)	106
choriocarcinoma	(2)	116
COL3A1	(5)	254
colestimide	(2)	111
collagen fiber	(3)	138
colon	(3)157, (4)	242
colon cancer	(1)	23
colonoscopy	(3)	157
cystitis glandularis	(6)	347

cytokine	(5)	262
----------------	-----	-----

D

diabetes mellitus	(1)	32
diagnosis	(6)	347
dihydropyrimidine dehydrogenase	(1)	23
<i>Diphyllobothrium nihonkaiense</i>	(4)	225
direct Kugel patch	(1)	28
diverticulum	(3)	157
drainage	(6)	332
duodenal varices	(1)	36

E

early clinical exposure	(4)	196
early infancy	(6)	350
Ehlers-Danlos syndrome (EDS)	(5)	254
elastic fiber	(3)	138
elective cesarean	(4)	247
electrical stimulation	(1)	4
endoscopic sphincterotomy	(5)	298
epidermal growth factor receptor	(2)	96
epidural anesthesia	(2)	85
esophageal achalasia	(4)	207
esophageal carcinoma	(5)	280
esophagus	(3)171, (6)	354
evoked potentials	(5)	274
experimental model	(6)	325

F

fetal heart rate monitoring	(2)	106
fibroelastoma	(4)	239
food intake	(4)	202

G

gastric banding	(4)	202
gastric cancer	(1)41, (4)	216
gastrointestinal stromal tumor	(5)	306
gastrointestinal tract	(2)	116
gefitinib	(2)	96
general anesthesia	(2)	85
genetic counseling	(5)	254

guidelines for the prevention of venous thromboembolism (3) 175

H

headache (6) 340
 hematemesis (5) 306
 hemobilia (5) 284
 hepatic cyst (5) 302
 hepatic encephalopathy (3) 152
 hepatobiliary cystadenocarcinoma (5) 293
 hepatocellular carcinoma (5) 284
 hepatotoxicity (3) 187
 hernia (1) 28
 home program (1) 4
 hypertrophic cardiomyopathy (6) 350
 hypothermia (2) 85

I

ileal lipoma (3) 166
 iliopsoas bursa (4) 233
 immunohistochemical staining (3) 181
 inflammation (5) 262
 inflammatory fibroid polyp (3) 181
 inflammatory process (6) 344
 interleukin 6 (5) 262
 interleukin 10 (5) 262
 intestine (3) 166
 intracerebral hemorrhage (1) 32
 intracystic bleeding (5) 293
 intracystic hemorrhage (5) 302
 intraluminal dissociation of intestine (5) 289
 intussusception (3) 166
 ipsilateral renal agenesis (2) 122
 isolated multiple pancreatic metastases (4) 221

J

jejunum (2) 116

L

laparoscopic Heller-Dor (4) 207
 laparoscopy-assisted surgery (3) 181
 late effects (6) 320
 living donor liver transplantation (3) 187
 local recurrence (4) 212
 low Apgar score (5) 269

M

macrothrombocytopenia (4) 228
 male (2) 116
 malignant mesenchymoma (4) 212
 mathematical computing (5) 274
 May-Hegglin anomaly (4) 228
 mediastinal tumor (4) 212
 mediastinum (2) 116
 medical education (4) 196
 medical English (4) 196
 meningeal carcinomatosis (4) 216
 meningitis (6) 340
 menopause (1) 15
 mesh (1) 28
 metabolic syndrome (1) 15
 metagonimiasis (1) 32
 microwave ablation (5) 284
 MRI (4) 216
 myelodysplastic syndrome (3) 162

N

necrosis (3) 162
 nemaline myopathy (6) 350
 neuroimaging (2) 68, (6) 344

O

obesity (1) 15, (4) 202
 operation (3) 171, (6) 354
 orotate phosphoribosyl transferase (1) 23
 otalgia (6) 340
 otitis media chronica cholesteatomatica (6) 340

P

pancreatic cancer (6) 325
 pancreatic metastasis (1) 41
 papillary (4) 239
 parasite (1) 32
 Parkinson's disease (2) 68
 patent paraumbilical vein (3) 152
 periampullary retroperitoneal perforation (5) 298
 perineal pain (2) 122
 PGHAM-1 (6) 325
 physical activity (1) 15
 placenta previa (3) 146
 plasma glucose (2) 111

pleural effusion	(5)	262
portal hypertension	(1)	36
portal-systemic shunt	(3)	152
postoperative pneumothorax recurrence ...	(2)	91
praziquantel insertion	(4)	225
prostate	(2)	77
prostatectomy	(2)	77
pyoderma gangrenosum	(3)	162

R

radiation-induced lung injury	(2)	96
rat	(4)	202
regression analysis	(5)	274
rehabilitation	(1)	4
renal cell carcinoma	(1)41, (4)	221
rheumatoid arthritis	(4)	233
risk factor	(5)	269
risk factors	(3)	146
rupture	(5)	284

S

salvage treatment	(5)	280
second neoplasm	(6)	320
seminal vesicle cyst	(2)	122
seroma	(6)	332
seromuscular tear	(5)	289
simulated patient	(4)	196
simulation	(4)	196
spontaneous perforation of colon	(5)	289
spontaneous pneumothorax	(2)	91
stomach	(5)	306
stroke	(1)4, (2)	68
submucosal tumor of the colon	(3)	181
surgery	(5)	293
surgical treatment	(5)	298
survivors of childhood cancer	(6)	320

Sweet's syndrome	(3)	162
------------------------	-----	-----

T

term	(5)	269
thallium-201	(6)	344
therapeutic trial	(6)	325
thermoregulation	(2)	85
thymidylate synthase	(1)	23
total hip arthroplasty	(4)	233
total pancreatectomy	(4)	221
traffic accident	(6)	337
transcatheter hepatic arterial embolization...	(5)	284
transfusion	(4)	247
transient tachypnea of the newborn	(5)	269
transurethral detachment prostatectomy ...	(2)	77
transurethral resection of bladder tumor	(5)	312
transurethral resection of the prostate.....	(2)	77
traumatic aortic injury	(6)	337
treatment	(3)157, (6)	347
trematode	(1)	32
tumor necrosis factor α	(5)	262
twin pregnancy	(4)	247
type 2 diabetes mellitus	(2)	111

U

urinary bladder	(6)	347
urothelial carcinoma	(5)	312

V

vaginal delivery	(5)	269
vaginal metastasis	(5)	312
vascular type of Ehlers-Danlos syndrome (vascular EDS, EDS type IV)	(5)	254
video-assisted thoracoscopic surgery	(2)	91
